SKILLS

- Dart, Flutter, GetX, Provider, Firebase, Google Map, Map Box, Rest Api, Odoo, Python, Laravel, C++, SQL
- Android & IOS App Development Using Flutter, Odoo & Laravel Backend

WORK EXPERIENCE

ITScholarBD: *Flutter and Odoo Developer*   03/2024 – Present

- Developed and launched the Docs24 app on Google Play Store using Flutter, enhancing document management capabilities with a sleek, user-friendly interface.
- Engineered real-time location tracking and route optimization for PenguinMeal Rider (Indian Food Delivery App) using Google Maps API, improving delivery efficiency and user experience.
- Created a comprehensive factory management software in Odoo, including API development, to streamline operations and boost productivity.

NavieaSoft: *Flutter Developer Intern*   08/2023 – 02/2024

- Developed the Safi Health app during my internship at NavieaSoft Limited, implementing key features like telemedicine, booking services, and Google Maps integration to enhance hospital management capabilities.
- Engineered the Safi Health Vendor Application, enabling seamless vendor profile management and schedule confirmation, contributing to an efficient healthcare service platform.
- Integrated critical services such as online pharmacy, ambulance, and blood bank into the Safi Health app, streamlining healthcare access and improving patient care.

Adware IT: *Programming Instructor*   12/2022 – 4/2023

- Delivered engaging and comprehensive programming courses at Adware IT, equipping students with practical coding skills and a strong foundation in software development.

PROJECTS

Safi Health: *Hospital Management App Using Flutter and Rest API*

- Telemedicine
- Doctor, nurse, nanny, caregiver booking nearby location
- Ambulance service
- Online Pharmacy
- Blood Bank
- Google map
- Rest API
- Available demo on [Google Drive](#)

Docs24: Document Management App *Using Flutter*

- Implemented a system for smart document sharing, enabling efficient collaboration and secure file transfer.
- Designed an intuitive interface for easy document upload, management, and sharing across various platforms.
- Available on [Google Play](#)

Finance Management: Document Management App *Using Flutter and Firebase backend*

- User authentication using firebase
- Expense Management

- Income Management
- Balance Checking
- Statistic Report
- Available on Github

PenguinMeal Rider: *Food Delivery app using Flutter*
- Implemented live location tracking, route directions with a moving marker, and real-time calculation of travel time and distance using Google Maps API.

CERTIFICATES

- Skill Development for Mobile Game & Application Project (2022)
- BASIS-SEIP Mobile Application Development (2022)
- Asia Dhaka Regional Site Preliminary Contest (04/2021)
- Asia Dhaka Regional Site Preliminary Contest (09/2022)
- Asia Dhaka Regional Site Preliminary Contest (2023)
- UITS IUPC (01/2023)
- Phitron Programming Contest 2022 (08/2022)
- In Recognition of Outstanding Academic Performance

EDUCATION

Green University of Bangladesh || CGPA – 3.43   February 2019 – August 2023
B.Sc in Computer Science and Engineering

    Relevant Coursework: Data Structures and Algorithms, Operating Systems, Machine Organization and Programming, Artificial Intelligence, Mobile App Development, Software Engineering, User Experience/User Interfaces, Object-Oriented Programming.

    Thesis: Computer Vision Based Masked Face Recognition Using Deep Learning
- Supervisor: Dr. Muhammad Aminur Rahaman (Chairperson of CSE, Green University of Bangladesh)
